

PLANT OPERATOR LEVEL I - GRAND TURK

Applications are invited from interested and suitably qualified individuals for the position of **Plant Operator Level I**, Grand Turk.

Description

The incumbent is responsible for assisting the Plant Control Superintendent and Manager of Operations in effective systems control, continual system condition monitoring, efficient generation unit dispatch, and timely response to system contingencies, in a manner consistent with standard operating procedures. They are also responsible for ensuring that all necessary activities to ensure the functional operations of generating units and response to system abnormalities that may occur during the course of shift duty, is carried out in a manner that ensures uninterrupted service continuity within acceptable systems parameters, and the highest level of fuel efficiency without compromising safety of fellow employees, the general public or system equipment.

Main Duties & Responsibilities

- Starting, monitoring, servicing and stopping generating units as required, or directed by the Plant Control Superintendent or his designate, in a manner consistent with standard operating procedures.
- Assist in ensuring that accurate and neat records are logged of all events and data occurring on the system.
- Respond in a calm, efficient manner to prevent system interruption and, in the event that it does occur, restore power to the system efficiently and safely after any plant interruptions.
- Assist the Plant Control Superintendent or his designate when called to do so in reporting any abnormal data to the appropriate persons in a timely manner and take prompt action to prevent or minimize any outages, prevent injury to employees and the general public and/or damage equipment under the control of systems operations (for example: abnormal temperatures, pressures, or other key generator parameters must be reported to the senior Operations personnel).
- Assist the Plant Control Superintendent when called upon, to inform appropriate Operations personnel in the event an outage occurs external to the plant, in a timely, accurate and efficient manner.
- Respond to customer inquiries in a polite and efficient manner when outages occur.
- Ensure that all outages are entered in OMS and dispatched to the linemen in a timely manner.
- Open and close Outage work orders in AX in a timely manner.
- Operate company vehicles and equipment as required and consistent with company policy and safe operating procedures.
- Ensure that plant equipment is monitored and engine operating services are carried out in a manner consistent with the company's efficiency targets and environmental responsibility commitments.

PLANT OPERATOR LEVEL I - GRAND TURK
